

Plastic foam and fluid

An effective preparation for cleaning all plastic surfaces (enclosures of monitors, computers, TV sets, window frames, computer hardware etc.). Removes dust, grease, fingerprints, dirty streaks, nicotine deposits etc., leaves no smudges.

Physicochemical properties		
Product form	foam	fluid
State of matter	gas	liquids
Color	white	transparent
Odor	characteristic of the raw materials used	
Density at 20 °C	0,98±0,02 g/cm ³	
pH	5,00-7,00	
Solubility in water	dissolves	
Explosive properties	does not show	
Flammability properties	extremely flammable aerosol	extremely flammable liquid and vapor
Flash point	undefined	

Application:

- monitor enclosures,
- computer enclosures,
- TV enclosures,
- window frame enclosures,
- computer equipment enclosures.

Packagings:

Volume	Type of packaging	Collective packaging	Item Code
250ml	plastic bottle with atomizer	12	ART.AGT-187
300ml	aerosol	12	ART.AGT-168
400ml	aerosol	12	ART.AGT-170
1L	plastic bottle	1	ART.AGT-104
5L	plastic canister	1	ART.AGT-320

Warehousing:

Store in a well-ventilated, cool place. Keep away from children. Protect from sunlight and temperature above 50 °C. Use proper ventilation on the premises. Avoid sources of ignition, heat, hot surfaces and open flames. Do not spray over open flames or any incandescent material. Keep away from any heat and ignition sources.
