

## PVB 60 solvent

High quality pure chemical agent. Designed for diluting the PVB 60 varnish. May be used to clean brushes, soiled equipment and elements due to painting or as a varnish remover. In order to obtain a thinner layer of PVB varnish, it is recommended to use the PVB solvent. It does not affect the colouration and does not tarnish the diluted product.

| Physicochemical properties |                                |
|----------------------------|--------------------------------|
| State of matter            | liquid                         |
| Color                      | transparent                    |
| Odor                       | characteristic                 |
| Relative density 20°C      | -0,78 - 0,79 g/cm <sup>3</sup> |
| Viscosity at 20°C          | 10 cP                          |
| Solubility in water        | does not dissolve in water     |

### Application:

- varnish remover,
- cleaning of brushes, soiled tools,
- it washes away the residues after soldering, including rosin.

### Packagings:

| Volume | Type of packaging | Collective packaging | Item Code   |
|--------|-------------------|----------------------|-------------|
| 500ml  | plastic bootle    | 1                    | ART.AGT-239 |

### Warehousing:

Keep away from sources of heat, hot surfaces, sparks, open flames and other sources of ignition. Do not smoke. Use only outdoors or in a well-ventilated area.
